

In support of **Clear the Shelter Month**, AdvoCats is offering **3 free educational Saturday meetups** in the months of August, September, and October!!!

Join us from 3:00-5:00 @ the downtown library.

Everyone is welcome.

Kids get goody bags!

August 31st - This will be our introductory presentation on covering the origin story of the invasive feline population and what you should do when you encounter stray or lost cats. There have been more reports of people being bitten by rabid cats than ever before. And as usual, it is **up to us** to demand a practical solution to be implemented and enforced.

September 28th - We are going to discuss specific care for cats and kittens and provide local resources to help when you have found a kitten(s). We will have a local veterinarian technician with 47 years experience in shelter and commercial medicine for Q&A time.

October 26th - Call To ACTION! We will help guide you through the many options for you to get more involved and be part of the solution. They range from fostering, fundraising, food drives, adoption events, yard sales, and **T** trap, **N** neuter **R** return/rehome. On-site cat and kitten care, photography, admin skills, political involvement, reaching out to your local representatives to have a place at the table to change laws that would support these innocent animals and would give them a chance at a humane and healthy life while simultaneously protecting our community.
